Forecast for Friday 04 Feb 2022

Weather: Clear or sunny periods through the day. Strong west to northwesterly winds will bring a few snow showers, these most frequent across the Perthshire hills. Fewer showers getting across to the Angus and Aberdeenshire hills.

Chance of cloud-free hill tops above 800m: 70%, best chance in the east of the area

Low Cloud and visibility: Very good outside of showers and cloud. Quickly falling poor in snow, and patchy cloud down to 750 metres in and around showers.

Met Office Aberdeen Meteorologist's View
Severe wind chill expected at mid-mountain level and above. Tracks may become covered in frequent snow showers across the Perthshire hills

Forecast for Saturday 05 Feb 2022
Weather: Cloud and persistent snow spreading from the west just before dawn, this lasting until early afternoon. Blizzard like conditions will develop at higher altitudes. Snow will turn to rain below 800 metres for a short time as freezing levels rise late morning and early afternoon. Clearer weather will spread from the northwest in the afternoon with strong northwesterly winds bringing snow showers.

Maximum wind: Windy at all elevations, summit severe gales or storm force winds gusting to 50 to 70 mph

Chance of cloud-free hill tops above 800m: Little chance in the morning, improving to 60% early afternoon onwards

Low Cloud and visibility: Widely poor in the morning and early afternoon with widespread cloud down to 500 metres, this lifting off the tops as the afternoon progresses. A much clearer end to the day expected with patchy cloud down to 700 metres as showers pass by

Temperature: **Glens:** Plus 1 rising to 5 Celsius
At 800m: Around zero or minus 1 Celsius
Freezing level: 600 metres, rising to around 1000 metres by late morning for a time, falling back to 400 metres by late afternoon
